TOP 10 EXPERIENCES

Be Sure to See All Top 10 Experiences!

- A

Apollo Saturn V Moon Rocket: See the National Historic Landmark designed in Huntsville, AL.
- B

Boeing Pressure Vessel: Get up-close to the primary structure that will protect astronauts and cargo during launch to the International Space Station as part of NASA's Commercial Crew Program.
- C

Skylab Training Module and largest surviving fragment: The training module was used to train astronauts for America's first space station, and the oxygen tank fragment fell to earth and landed in Australia.
- D

Apollo 12 Lunar Rock Sample: This piece of basalt was collected by Apollo astronaut Alan Bean in 1969.
- E

Apollo 16 Command Module: The capsule was used to launch and return John Young, Charlie Duke and Tom Mattingly in 1972.
- F

Pathfinder Shuttle Stack: This is the only full shuttle stack in the world. Pathfinder served as a non-flight test vehicle and is currently undergoing restoration.
- G

A-12 Oxcart: This aircraft traveled from New York to London in an hour but is considered an antique by today's military standards.
- H

Saturn 1: This Saturn I Block II rocket is a vibration test article from the development phase of the Saturn program. It features eight aerodynamic fins to stabilize flight and a powered upper stage for orbital insertion.
- I

Boeing CH-47D Chinook: The Chinook is a transport and medevac helicopter used by the Army for more than 40 years.
- J

Shuttle Training Aircraft: This modified Gulfstream II was used by space shuttle pilots to learn how to land the orbiter.
- 1

INTUITIVE® Planetarium – Visit our state-of-the-art 8k digital planetarium for an immersive entertainment experience.
- 2

National Geographic Theater – Explore science, culture, history and nature.*
- 3

Hypership – This HD motion-based simulator is a multi-sensory experience that combines a movie-like audiovisual presentation with the motion of the ride compartment.
- 4

VR Explorer – Take a trip to the Moon with the crew of Apollo 11 or zip around the cosmos on this Virtual Reality motion-based simulator.
- 5

Multi-Axis Trainer – Experience a spacecraft tumble as you ride strapped and suspended in three tumbling rings.
- 6

AC Flight Sims – Learn to fly an F-18 Super Hornet as you sit in a cockpit and grace the skies in this simulated flight.
- 7

DIVR+ – Participate in a virtual reality snorkeling system with sensory feedback.
- 8

MaxFlight – A state-of-the-art FS-VC Dual system fully interactive flight simulator. This full motion, 360-degree pitch, roll, and spin technology will put you in the pilot's seat – literally.
- 9

G-Force – This centrifuge spins approximately 45 mph and will exert approximately 3 Gs of force on your body*
- 10

Moon Shot – Experience 3 Gs of liftoff and simulated microgravity*
- *Included with General Admission
Please see guest services for pricing, availability and restrictions.
